

## NOVAK 13SF

**2-ply belt with silicone impregnation on the top cover and TPU impregnation on the bottom cover.**

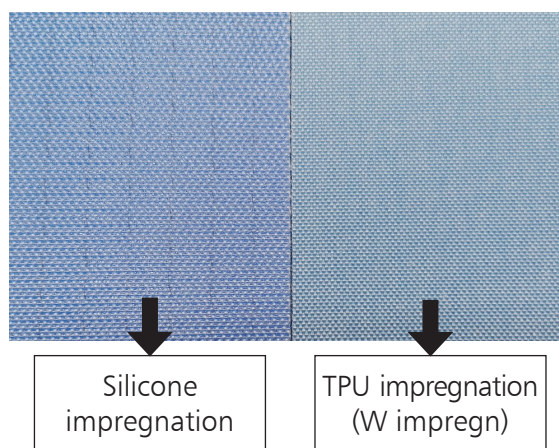

### Advantages of Novak 13SF:

- Works on rollers and also on slider beds.
- Easy to clean.
- Non-stick and non-slip.

### Main characteristics of the Novak 13SF:

- 2-ply, rigid weft.
- Antistatic top cover.
- Total thickness 1.80 mm.
- Top cover: SILICONE Blue 01.
- Bottom cover: TPU Blue 10, W Impregn.
- FDA + EU Food Grade (Regulation 1395/2004).
- Flexing and back flexing: 30 / 30 mm.

### Applications:

Ideal for conveying very sticky products and at high temperature, such as candies and jelly beans at the extruder exit.
